

Love, Hope and Faith

Daniel O'Donnell

Verse 1

We all need a path in life to walk along
And someone to show the way and right from wrong
Sometimes in life we maybe led astray,
And that's when we need a hand to show us the way.

Chorus

We need love, hope and faith to build our lives on
We need love, hope and faith together as one
And with love, hope and faith, the way will be shown
When you've got love, hope and faith you're never alone

Verse 2

The gift of love, is there for all mankind
It's in our hearts, it's there for us to find
And even when we feel that hope has gone
It's our love and faith that helps us carry on

Chorus

We need love, hope and faith to build our lives on
We need love, hope and faith together as one
And with love, hope and faith, the way will be shown
When you've got love, hope and faith you're never alone

Instrumental

Chorus

We need love, hope and faith to build our lives on
We need love, hope and faith together as one
And with love, hope and faith, the way will be shown
When you've got love, hope and faith you're never alone

When you've got love hope and faith you're never alone.
