

You Will Always Be Free

Noora Noor

Everything is possible, that's what you say
Reach out for the stars
Don't be afraid, you are calm with the waves
Noora you will find your place

If you're lost and cold, and feelin' alone
Remember, I'll be there for you
If you need some time to work it out, you know we'll see it through

You will always be free
You will always be free

Everything you feel is real,
That's how it's gotta be
Every dream can be fulfilled,
If you wanna come see

When you're lost and cold, and feeling alone
Remember, I'll be there for you
If you need some time to work it out, we'll see it through

You will always be free
You will always be free
You will always be free
