My Extraordinary Mind

No Fun at All

Thursday afternoon, I was bending every spoon
Stopping all the clocks in Saskatoon
My extraordinary mind
It's everything I could ever wantI tell you what it's all about
Turning all the rabbits into sauerkraut
My extraordinary mind
So come with me and we'll levitateBorderline, I don't need any approval
Borderline, it's so good for me
Borderline, I don't need any approval
Borderline, it's the best solutionYou tell me that you have your doubts
If you contradict me, I will ram your snout
My extraordinary mind
Be careful with what you have to sayDon't you try to analyze my head
All you little people are so misled
My extraordinary mind
It's something you'll never understand
