

Kismet Kill

[Haley Bonar](#)

I lick the salt and toss my hair
Don't I remind you of somebody somewhere?
Subtle
Don't waste your time
If you want to catch me you're no friend of mine You and Romeo
Not my first rodeo
And now we're the kids who got kids at parties
I was impossible when I was beautiful and now
Cartoon deaths just don't seem so funny I got a death wish by my side
So don't you want to take me for a ride?
We can leave together, sleep in cars
Silver firecracker knows where we are Way into them we think
Crying in the kitchen sink
And when did I bury my own dreams of running? I was impossible when I was beautiful and now
I'm the kismet kill; I'm there beside you You and Romeo
Not my first rodeo And now we're the kids who got kids at parties
I was impossible when I was beautiful and now
I'm the kismet kill; I'm there beside you I was impossible when I was beautiful and now
I'm the kismet kill; I'm there beside you
There beside you
