

# Running Blind

## Bashful Alley

Can't find the answers  
I've been crawling on my knees  
Looking for anything  
To keep me from drowning Promises have been turned to lies  
Can't even be honest inside  
Now I'm running backward  
Watching my life wave me goodbye Running blind, I'm running blind  
Somebody help me see, I'm running blind Searching for nothing  
Wondering if I'll change  
I'm trying everything  
But everything still stays the same I thought if I showed you I could fly  
Wouldn't need anyone by my side?  
Now I'm running backward  
With broken wings I know I'll die Running blind, I'm running blind  
Somebody help me see, I'm running blind  
Running blind, running blind, running blind I can't find the answers  
I've been crawling on my knees  
Looking for anything  
To keep me from drowning I'm running blind, running blind  
Running blind, running blind  
Running blind, running blind  
Running blind, running blind, running blind
