Antidepressant

Bryson Andres

Im serving 12 to 15, working the coffee machine
Ive got a license to fly underneath the radar
Shes about 50 feet north, 'As Seen On TV' store
I know shes gonna tune me in sooner or laterWith my medication, I will be fine
With my medication, I will be fine
With my medication, I will be, I will be fineI said, Im trying to write my novel
She said, Neither am I
And either way I saw you reading 'No Depression'Youre doing nothing, Ill come over
Well watch '6 Feet Under'
And then well maybe get around to your conditionWith my medication, I will be fine
With my medication, I will be fine
With my medication, I will be, I will be fineFirst shes gonna tire of my fixations
Then shes gonna tire of my face
Im gonna need a new affectation
Im gonna need a new one everyday, everydayWith my medication I will be fine
With my medication, I will be fine
With my medication, I will be, I will be fine
