Clever

Wave

Does anybody know
Where all the people go, oh no
Does anybody care
I found what I will wear, oh noAnd if I ever
Maybe never
Lose what I have found
I'm so cleverCoz they're coming after you
They're coming after you
Could we ever say what we wanna say
Coz they're coming after me
They're coming after me
Could we ever be what we wanna beDid anybody see
The way she looked at me, oh no
I saw her standing there
Does anybody care, oh noAnd if I ever
Maybe never
Lose what I have found
I'm so clever[CHORUS]Can anybody hear me
Does anybody careDoes anybody know
Where all the people go, oh no
I saw her standing there
Does anybody care, oh noAnd if I ever
Maybe never
Lose what I have found
I'm so cleverCoz they're coming after you
Coming after you
Coming after you
Coming after me
Coming after me
Coming after you
Coming after you
Coming after me
Coming after me[CHORUS]
