Love Will Kill All

Calico System

Can't do anything right
Try to replace me, still see the face of me
All the things that I have tried
I try to make you, see my love front of you
Makes me question my own life
My own lifeThe loss that you gave me
Isn't rational for me to see
Resistance is futile, I stand here aloneAnd all the ways that I have tried
Try and replace me, still see the face of me
I'm constantly by your side, by your sideLove will kill allEverything rise and fall, you say what you mean
Resisting my love, I show you all you cannot see
You say everything fails in timeLove will kill allAll my caring dies in vain
Try and replace me, still see the face of me
Hold my hand when you're in pain
I try to make you, see my love front of you
Your changing, rips my life away, my life awayThe loss that you gave me
Isn't rational for me to see
Resistance is futile, I stand here aloneI'm sorry you're guilty, you've made me borderline
Crazy you make me and oh are you satisfied
