Overflow

Henry's Funeral Shoe

Still a long way to go
without any clothes
cuz my heart beats loud like it does
well may steal the show

see me on the run
well catch me in the light
i'm gonna howl at the moon
in my best shoes
because I'm on the air for fun

And you're right for me
Yes I'm right for you

So much love in me right now
that I'm about to overflow

So much love in me right now
that I'm about to overflow

Shadows don't mean a thing
Never reflect my mood
How we came down
We Never changed the sound
Just have to chase the groove

And you're right for me
Yes I'm right for you

So much love in me right now
that I'm about to overflow

So much love in me right now
that I'm about to overflow

And you're right for me
Yes I'm right for you

So much love in me right now

that I'm about to overflow

So much love in me right now
that I'm about to overflow
