Glitter & Gold

Cheap Time

How good or bad happy or sad
Does it have to get
Losing yourself, no cry for help
So you don't think you need it
And old friends are just a chore
But now you need them more than ever before
All that glitter and all that gold,
Won't buy you happy when you've been bought and sold,
Riding wild horses you can't control,
With all your glitter and all of your gold,
Take care of your soul
Take care of your soul,
Soooooul x 2
How high how low
How on your own
Does it have to get
Losing your soul will cost you more
Than that life you're paying for
And all those friends that are just a chore
You gonna need them more than ever before

All that glitter and all that gold
Won't buy you happy when you've been bought and sold
Riding wild horses you can't control
With all your glitter and all of your gold
Take care of your soul
One day you're gonna wake up and find that
No dream is losing is shine and
Nobody is by your side
And when the rain comes down and your losing your mind
So who you gonna run to, where you gonna hide
Glitter and gold won't keep you warm
On those lonely nights
And all those friends that are just a chore
Your gonna need them more than ever before
All that glitter and all that gold
Won't buy you happy when you've been bought and sold
Riding wild horses you can't control
With all your glitter and all of your gold

Take care of your soul
and all of your gold
Take care of your soul x 2
