

The Low Down Man

Squirrel Nut Zippers

That low down man of mine
Mistreats me all the time
He says he loves me only
Then turns around and leaves me
Sad and lonely If he could see through my eyes
And be the one who cries
He would see, he would never be
That low down man of mine That low down man with his low down ways
I know he'll go some day
I'll wait till then, the story's ending
It won't be long but from now on If he could see through my eyes
And be the one who cries
He would see, he would never be
That low down man of mine
