Friends

Lightning Love

Well my friends,we go out,and we drink,and we're loud,and we'll tare up the town,to the point where you can't build it back, the point where i can't take things back.And they'll say I'm the worst 'cuz I'll spit or I'll curse and I'll fight and the next day i wont remember what i did, i don't remember what i did.(CHORUS)
If you know where my friends are hangin out
if you know why they havent been
around
if you see them please tell them to come talk to me.Well they all had a laugh,when i climbed up the shaft,and i pissed in the elevator in that old parking garage,but i really wish they hadn't watched.And they thought it was cute,'til i kicked off my shoes,and i started to puke,and my friends well they all walked away, i thought real friends would have stayed.If you know where my friends are hangin' out,if you know why they haven't been around,if you see them please tell them to come talk to me.
(x2)It would just take a phone call to talk to me.All it takes is a phone call,all it takes is a phone call all it takes is a phone call, and ill say that I'm so-o sorry , ill say I'm so-o sorry (x2)If you know where my friend are hangin out,if you know why they haven't been around,if you know where my friends are hangin' out, if you know why they haven't been aroundIf you know where my friends are hangin' out,if you know why they haven't been around,if you see them please tell them to come talk to me-e-e-e to me-e-e-e
