

Stay Frosty

Van Halen

I journeyed to the North
To hear what the preacher said
"Your arms are too short to box with God
Learn these words instead"
Gold tooth reflecting
My advice is free
There's a trick to Christian values and its compulsory Stay frosty
That's what the preacher man said
Stay frosty
His words still racket in my head
Can't control your future
Can't control your friends
In a world without end
Stay frosty!
Hey yeah
Stay frosty now
Ah huh right, woo! Uh huh huh, uh huh huh
Uh huh huh huh huh huh huh
Uh huh huh, uh huh huh
Huh huh, huh huh And I traveled to the South
The ancient Rabbi appeared to me
Voice heavy with the sands of time
He made me see
Same as Kabbalah Dave but for you it's free
God guides us on our journey
But be careful with those feet Stay frosty
In a world without end
Stay frosty
Like the ancient immortals said
Don't want 'em to get your goat
Don't show 'em where it's hid
And that's just what I did
Stay frosty!
Woo! Look out!
Stay frosty now Uh huh huh, uh huh huh
Uh huh huh huh huh, huh
Uh huh huh, uh huh huh
Huh huh, huh huh I journeyed to the East
I struggled to stay afloat

A solitary Buddhist monk
Threw me a rope
Looked me in the eye
Don't make me say this twice
You want to be a monk, you to cook a lot of rice Stay frosty
In a world without end
Stay frosty
Work hard at this my friends
Look beyond the Kung Fu fighting
God is love
But get it in writing Stay frosty
Stay frosty now I wandered out West
To the California coast
Where the folks who know about frostiness stay frostiest the most
My brand new landlord
Proposed me a toast, "my West Coast host" Stay frosty
Chant it like a mantra
Stay frosty
And there's nothing you can't handle
Far and wide far as you ramble
Trust in Allah
But tie up your camel
Stay frosty!
