Fire Of Unknown Origin

[unknown]

Death comes sweeping through the hallway
Like a lady's dress
Death comes driving down the highway
In its Sunday best
A fire of unknown origin
Took my baby away
A fire of unknown origin
Took my baby away
Swept her up and off my wavelength
Swallowed her up
Like the ocean in a fire
So thick and gray
A fire of unknown origin
Took my baby away

A fire of unknown origin
Took my baby away
Death comes driving, I can't do nothing
Death goes
There must be something
There must be something that remains
There must be something
There must be something
A fire of unknown origin
Took my baby away
A fire of unknown origin
Took my baby, took my baby away
