

Strange Days

ALO

Oh, I got a feeling
Burns like the sun inside my soul
Burns like the sun in my soul Oh, I got a story
Thirty-five million years old
Burns like the sun in my soul And I hear a voice on the wind
Telling me it's gonna change
Holding my breath through these strange days Out of the water
Lightning crashing in my skull
Burns like the sun in my soul And I hear a voice on the wind
Telling me it's gonna change
Holding my breath through these strange days Try to be bold through these strange days Through these strange
days(x4)
