

Over

Rachael Yamagata

I really thought I was okay
I really thought I was just fine
But when I woke this time
There was nothing to take me back to sleep
To take you off my mind
This time[Chorus]
And I keep saying over and over and over and over again
Let it rain, let it rain
Over and over and over and over again
Let it rain, let it rain I need to hide within a storm
So happy ending come
And bring the winds that scream
And spill the fog all over time
And hold me in your standstill ground
And I will sit down
And you'll be washed away
You'll be washed away[Chorus] I really thought I was okay
I really thought I was just fine
But when I woke up this time
There was nothing to take you off my mind[Chorus] I need within the storm
So happy ending come
And bring the winds that scream
And spill the fog all over time
And break through every door
And strip away between
And raise the rivers high
Just help me drown
And hold me in your standstill ground
I will sit down
And you'll be washed away
You'll be washed away
