

Wax and Wane

Deftones

Now carrying prose
Broke my real friend
The devil might steady
We wax and we waneThe devil might steady
We wax and wane
The devil might steady
We wax and waneThe devil might steady
We wax and wane
The devil might steady
We wax and waneLicking alms
The devil might steady
Rattling we'll taste
We wax and we waneThe devil might steady
We wax and wane
The devil might steady
We wax and waneThe devil might steady
We wax and wane
The devil might steady
We wax and waneCaring is a bury gin shot
The devil might steady
Up till the wee wanes
Oh, we laugh in their facesThe devil might steady
We wax and wane
The devil might steady
We wax and waneThe devil might steady
We wax and wane
The devil might steady
We wax and waneThe devil might steady
We wax and wane
The devil might steady
We wax and waneThe devil might steady
We wax and wane
The devil might steady
We wax and wane
