

# SOHO

## Jaden Smith

Said she wanna go to SoHo  
(SoHo, SoHo)  
I just took one sip, all them cars move in slow-mo  
(Slow-mo, slow-mo)  
New supermodel bae, tryna keep it on the low-low  
(Super hush-hush)  
Broke up with me one day, girl, your heart's just so cold  
(Like so fucking cold)  
Said that I'd give you the world and you turned it to a snow globe  
Oh, no, baby, now they takin' photos  
Me and my red cup in the cut, girl, I'm solo, dolo  
Head in the club, girl, I won't go  
I got niggas lookin' for me, comin' for my whole soul  
Tryna get me, they think they slicky, I'm on road though  
I got all those sexy pictures of you wearin' no clothes  
I don't post those, you know the flow so cold  
This mic froze over 'cause he know I'm Frozone  
Everything I wear on the air is the wardrobe  
Fuck the po-po, bounce this like pogo  
See what you do to me, bae, I'm loco  
Hit me on the phone (Yuh, ayy)  
Said she wanna go to SoHo (Oh)  
She said I'm sick of chillin', sittin' in the Hills readin' Osho  
She said I wanna go to Paris and I want a real kimono (Oh)  
Or get it poppin' with my partners  
Swear we gotta feel the mojo (SoHo)  
Don't got that counterfeited swag (Yeah)  
Fuck a wish, that's a no-no (Yeah)  
We got orange jam, brand new whip, finna orange it  
Man, think I'm 'bout to go to Florence and (Damn)  
All my foreign shit, you endorsin' it (Yeah)  
It was porcelain, I had a competition and a tournament  
I was chillin', hangin' like an ornament  
The poets asked me, "Am I bored of this?"  
Bored of this, borderline torturous  
The way your voice comes through your lips, I-I'm close and I'm so far tonight  
(You always have been)  
'Til morning time, your soul is yours and mine  
(My biggest, my inspiration)  
No courtside, ooh, oh  
Said she wanna go to SoHo (Yeah, ayy)  
I just took one sip, all them cars move in slow-mo

(Slow-mo, slow-mo)

New supermodel bae, try to keep it on the low-low

(Super hush-hush)

Broke up with me one day, girl your heart's just so cold

(Like so fucking cold)

Said that I'd give you the world and you turned it to a snow globe(I don't fall in love with most people, but I  
just love you)

(Love your eyes, I just had to say that)

(Told her her eyes are good)

(Of course, this could be bad for us)
