

# When Summer's Gone

## Blue

She was a lonely type  
Her heart cannot disguise  
Her passion for life She had a love for art

(Art)

Painted pictures with her heart

She's one

(She's one)

Of a kind She's standing tall, she's got it all

She's everything, I'm looking for, ohh

She's standing tall, she's got it all

She's everything

(Everything)

I'm looking for If you want me like I want you, if you need me like I need you

It's alright

If you love me like I love you, let me be the one to hold you

Through the night We'll be walking through leaves, when summer's gone

We'll carry on

We'll be walking through leaves, when summer's gone

We'll carry on I am a simple man, take pride in what I am

Got passion for life

Don't think I'm like the rest, with my heart upon my chest

I try to be kind She's standing tall, she's got it all

She's everything, I'm looking for, ohh, yeah, yeah, yeah, yeah, yeah

She's standing tall

She's got it all

(Got it all)

She's everything, I'm looking for, yeah If you want me like I want you, if you need me like I need you

It's alright

If you love me like I love you

(If you want me)

Let me be the one to hold you

(If you need me)

Through the night We'll be walking though leaves, when summer's gone

We'll carry on

(Ohh, we'll carry on, ohh, we'll carry on)

We'll be walking through leaves, when summer's gone

We'll carry on Somehow I do believe

Some things are meant to be, yeah If you want me like I want you, if you need me like I need you

It's alright, yeah

If you love me like I love you  
(If you love me)  
Let me be the one to hold you through the night  
(Ohh, yeah) We'll be walking through leaves, when summer's gone  
We'll carry on  
We'll be walking through leaves, when summer's gone  
We'll carry on
