Pacific Ocean Blue

Poco

It's okay to beat the living shit from the drum kit
It's okay to take what you don't have, if you want it
It's alright, if that's your way
Water's cold, December, Del Ray
Through those eyes, made me cry
And the summer is forever, it's the endless summer
And it's not about your girlfriend
And it's not about your boyfriend
And I'm not about to lose it over you
And remember what I told ya
The nights in California
It's all about Pacific Ocean blue
It's okay to leave your jacket on in the ocean
It's okay to sing the saddest song, vibrations
Thanks a lot, you can be
What you want, honestly
Magic days, golden nights
And the summer is forever, it's the endless summer
And it's not about your girlfriend
And it's not about your boyfriend
And I'm not about to lose it over you
And remember what I told ya
The nights in California
It's all about Pacific Ocean blue
I don't need no explanation
All I got is best intentions
I got fears too much to mention
You're not there
When I'm scared, terrified
Jump right in, the water's fine
And it's not about your girlfriend
And it's not about your boyfriend
And I'm not about to lose it over you
And remember what I told ya
The nights in California
It's all about Pacific Ocean blue
And it's not about your girlfriend
And it's not about your boyfriend
And I'm not about to lose it over you

And remember what I told ya
The nights in California
It's all about Pacific Ocean blue
And it's not about your girlfriend
And it's not about your boyfriend
And I'm not about to lose it over you
And remember what I told ya
The nights in California
It's all about Pacific Ocean blue
