

A Hard Nut To Crack

Aaron Neville

I play the game of the modern romeo
But never in my life did I see
A woman as square as a pool table
And twice as green
I gave you all of my money
And all of my loving too
But now you're goin' around just a telling everybody
That I made a fool of you
Girl, I love you so
Why I love you I just don't know?
I ask the man from up above
Help me to save your love
I want you, you're a hard nut to crack
You take a strong man and break his back
I don't know but I've been told, next to you my life's been cold
You're a demon, girl, you know you're outta sight
Girl, I love you so
Why I love you I just don't know?
Ask the man from up above
Help me to save your love
I want you
Know the guy you're giving my money
And you come home and call me honey
You look like you made a resolution
Took my best friend John and put him in an institution
You're a demon
Girl, you know you're outta sight
Girl, I love you so
Why I love you I just don't know?
I ask the man from up above
To help me to save your love
I want you
You're a hard nut to crack
