Hypocrite In A Hippy Crypt

Feeling alone
I'm Feeling Blue
Then I look up and I see youEverything's wrong
Everything's new
Then I look up and I see youYou don't know how long it's been here
What used to be wrong is now clear
And no one will know
With nothing to showThe bind that we find ourselves in
Will come to a bitter sweet end
And no one will know
With nothing to showIm feeling down
A bad angle of view
Then I look up and I see youFeelings abused
Long overdue
Then I look up and I see youYou don't know how long it's been here
What used to be wrong is now clear
And no one will know
With nothing to showThe bind that we find ourselves in
Will come to a bitter sweet end
And no one will know
With nothing to show
