

# Happy Porno Living

## Fireside

A new surprise  
It gets me every time  
And because of the spring  
I can't do anything And I check up on the phone  
And it works how it's supposed to  
There's someone outside my door  
But I just keep on sleeping And I'm waitin' I spend my days at home  
Where it all started I trust my mind  
Keep my windows closed  
The late night shows  
I follow every moment And the night becomes my day  
It's got a pleasant cold  
When trees turns gray  
They get hard to notice And I'm waitin' I spend my days at home  
Where it all started Don't make me cry  
Don't say that it's fading  
A phone call late at night  
And I'll just keep on waiting I spend my days at home  
Where it all started I spend my days at home  
Where it all started
