

Climb on Board

Labrinth

Baby, I, I, I'm go-oh-oh-oh-oh-oh-ing somewhere

I, I don't know-oh-oh-oh-oh-oh

To another planet, to another destination

Must be my drink, it must be something I took

But you should climb on board

Oh-oh-oh-oh-oh-board

Something tells me I'm almost there

On my trip to outer space

In the middle of no where

So I say come follow me

Come follow me, come

I'll take you to a place I know

But just before you come follow me

Come follow me, come

Just put two three more down your throat

And I'm off into the clouds

Don't know if I will find my way

Back down, what a feeling

And you're dancing oh

Baby, I, I, I'm go-oh-oh-oh-oh-oh-ing somewhere

I, I don't know-oh-oh-oh-oh-oh

To another planet, to another destination

Must be my drink, it must be something I took

But you should climb on board

Oh-oh-oh-oh-oh-board

Something tells me I'm almost there

(What?)

Cause I'm out of my head with my lady holding me up

I told her come follow me

Come follow me, come

I'll take you to somewhere I go

Cause girl if you don't come, come my way

You might just get left on your own

And I'm off, into the clouds

Don't know if I will find my way back down

What a feeling and your dancing no

Baby, I, I, I'm go-oh-oh-oh-oh-oh-ing somewhere

I, I don't know-oh-oh-oh-oh-oh

To another planet, to another destination

Must be my drink, it must be something I took
But you should climb on board
Oh-oh-oh-oh-oh-board
Now I'll be on, my merry way
And I hope that you would come along
For the ride, for the ride
For the ride, for the ride
Baby, I, I, I'm go-oh-oh-oh-oh-oh-ing somewhere
I, I don't know-oh-oh-oh-oh-oh
To another planet, to another destination
Must be my drink, it must be something I took
But you should climb on board
Oh-oh-oh-oh-oh-board
Baby, I, I, I'm go-oh-oh-oh-oh-oh-ing somewhere
I, I don't know-oh-oh-oh-oh-oh
To another planet, to another destination
Must be my drink, it must be something I took
But you should climb on board
Oh-oh-oh-oh-oh-board
