Hypocrisy

Agnostic Front

So you hate your mom, you hate your dad you hate "the state" because it's bad but look at you, how do you rate? you're just as bad as those you hate you're telling me--you keep telling
But deep down inside--you're not true to your mind all fucked up, king of the show flail at your friends, you don't know fight before and afterward but it don't do you any good so live your lif
Ignorance close your mind, your defiant stance isolate and isolate until you're gone and it's too late to wake up and live you're just a victim of your fate
