

# Like the Rain

Allison Moorer

Rain falls on my roof  
Doing what it's meant to do  
Forever lost to the ground  
Hangs around in the sky  
Then lets go when it's time  
It doesn't mind coming down  
To make the flowers grow  
And make the rivers flow  
It doesn't need to know  
Where it's gonna land  
No more making plans  
I don't care where I stand  
I'd rather be like the rain  
To make the flowers grow  
And make the rivers flow  
It doesn't need to know  
Where it's gonna land
