

# Call On Me

## Lou Reed

Call on me when you're alone

baby if you need someone to love

Livio: if sometimes, things are hard for you

Joey: if nothing goes right for you

Livio: dont you worry cause im on your side

Joey: there's gonna be a way out everytime

Livio: if sometimes, you can see the light

Joey: happiness is always so bright

Livio: dont you worry cause i'm on your side

Joe: there's gonna be a way out everytime

Chorus:

ATC:

call on me when you're alone

baby if you need someone to love

call me, love is a thing that you need

so call on me, call on me

call on me when you're alone

baby if you need someone to love

call me, love is the answer you need

so call on me, call on me

Livio: (if you need someone to love...to love... to love....)

Joey: if somewhere, there were better days

Livio: their happy ever after again

Joey: dont you worry cause i'm on your side

there's gonna be a way out every time

Chorus:

ATC:

call on me when you're alone

baby if you need someone to love

call me, love is a thing that you need

so call on me, call on me

call on me when you're alone

baby if you need someone to love

call me, love is the answer you need

so call on me, call on me

Livio: (oh baby call on me....call on me... call on me....)

ATC: call on me when you're alone

baby if you need someone to love

Chorus:

ATC:

call on me when you're alone  
baby if you need someone to love  
call me, love is the thing that you need  
so call on me, call on me  
call on me when you're alone  
baby if you need someone to love  
call me, love is the answer you need  
so call on me, call on me  
call on me when you're alone  
Livio: (ooh baby call on me!)  
call on me when you're alone  
baby, love is a thing that you need  
so call on me, call on me.....
