Still Love Me

Jessie Ware

See it in your eyes,
See it in your face
And older, see it too
If I make myself understood.
Will you treat me like you know you should?!
Uuuh uh
Still love me, still love me
Do you love me?
Still love me, still love me
Do you love me?
Still love me, still love me.
See, it's been a while
Looking through your eyes
I was taken in, taken by surprise.
Why did you want me, why'd you stayed so close?
You're still not leaving?
Was I enough?
If I make myself understood.
Will you treat me like you know you should?!
Uuuh uh
Still love me, still love me
Do you love me?
Still love me, still love me
Do you love me?
Still love me, still love me.
Still love me, still love me.
Do you love, do you

Do you, do you still love me.
You're the one that's more easy to adore
I don't ever have to leave of you still want me.
If I make myself understood.
Will you treat me like you know you should?!
Do you love me?
Still love me, still love me
Do you love me?
Still love me, still love me.
Do you love me?
Still love me, still love me.

Do you love me?
Still love me, still love me.
Do you love me?
Still love me, still love me.
Do you, do you, do you love me?
Still love me, still love me.
If I make myself understood.
Still love me, still love me.
Will you treat me like you know you should?!
Still love me, still love me.
Still love me, still love me.
Still love me, still love me.
If I make myself understood.
Still love me, still love me.
Will you treat me like you know you should?!
Still love me, still love me.
Do you love me?
Still love me.
