

# So You Say

## Rio

Tell me anything  
Say the words to me  
How can I complain?  
Your body I believe If you say that the sky was green  
I'd believe you  
If you whispered the words  
To me, like a secret You may think I'm stupid  
And a little bit foolish  
To think that you'd be feelin the same I'm like  
So you say Missing honesty  
Say you love me a thousand times  
It don't mean that much to me  
So just kiss me another night (chorus) i love you, love you baby its hard for me to even take you serious  
So tell me anything you like  
Cuz I'm sure I'll find I'm like so you say  
So you say a word to me  
I still don't know cuz only beauty's all the same
