The Way She Loves Me

What's Eating Gilbert

She lit me like a summer day
I was lost, I was broken
I'd question every word I'd say
But when we met, I knew the clouds would part
It's not the way she moves, it's not the way she looksIt's the way she loves me, the way she wants me
The way she sees me, it makes me believe
That I could be good at something
(Ooh-woo-ooh)The years go by and she's still mine
I'm standing tall, I feel unstoppable
But if I fail, I'd still be fine
I never doubt that she'll be by my side
It's not the way she moves, it's not the way she looksIt's the way she loves me, the way she wants me
The way she sees me, it makes me believe
That I could be good at somethingNever forget it, I never will forget it
Where I'd be, if by God we never met
Never forget it, I never will forget it
How you changed my life
Oh, how you saved my life, oh-oh, oh-oh-oh-oh-oh-ohIt's the way she loves me, the way she wants me
The way she sees me, it makes me believe
That I could be good at something
The way you love me, the way you want me
The way you see me,and make me believe
That I could be good at something
(Ooh-woo-ooh)
