

Tannhäuser / Deriv

Refused

So where do we go from here?
Just about anywhere
Disorientated but alive
Boredom won't get me tonight Let's bring this city
To life, to light, tonight
Let's bring this city
To life, to light, tonight There is no destination
But with a goal in mind
We can all be realistic
Demand the impossible Let's bring this city
To life, to light, tonight
Let's bring this city
To life, tonight Every street is an adventure
And every road becomes a thrill
[Incomprehensible] Every turn we take
And every decision
That we don't make
Even the decisions we don't make Will bring us into
The secrets of the town
Every corner we turn will lead us
Every corner we turn
Will lead us down the labyrinth And every desire that we earn
Will guide us, alive, living
Loving and searching
And searching So where do we go from here?
Just about anywhere
Disorientated but alive
Boredom won't get me tonight Boredom won't get me tonight
Boredom won't get me tonight
Boredom won't get me tonight
Boredom won't get me tonight
