

Two in the Morning (feat. Howard Hewett)

Hulon

I call you up in the middle of the night
To say how much I need you
And though it hasn't been the same, since that difficult time
I never thought you'd leave me
You talk about how much it means for us to be together, theres no sense in being alone
So if you hurt as much as me whenever were apart
Just come at once
You'll find your baby at homeTwo in the morning alone in my bed
Can't sleep without you im loosing my head
Tried it without you cant seem to do right
Love me for begging baby come home tonightNow I'm that type of person who believes in working out
All the problems that come between us
It will only make us stronger, and this there is no doubt
As long as we still trust
Cause only you poses the magic
The smell the taste, and ooh the touch
It's 2 o'clock in the morning, and only you can make it right
So come at once you'll find your baby at homeTwo in the morning alone in my bed
Can't sleep without you im loosing my head
Tried it without you cant seem to do right
Love me for begging baby come home tonightIt's true I've been without you for too long, yeah
If something should come between us
Just remember all the pain, whenever were apart
Don't let these problems deceive us
Let's work it out so you never leave your baby aloneTwo in the morning alone in my bed
Can't sleep without you im loosing my head
Tried it without you cant seem to do right
Love me for begging baby come home tonight
(repeat chorus 3x)
