

Reject

Green Day

Who the hell are you to tell me
What I am and what's my master plan?
What makes you think that it includes you?
Self righteous wealth
Stop flattering yourself So when the smoke clears here I am
Your reject all American
Sucking up you social sect, making you a nervous wreck
To Hell and back and Hell again I've gone
You're not my type
Not my type What's the difference between you and me?
I do what I want, and you do what you're told
So listen up and shut the hell up
It ain't no big deal
And I'll see you in Hell So when the smoke clears here I am
Your reject all American
Sucking up you social sects, making you a nervous wreck
To Hell and back and Hell again I've gone
You're not my type
You're not my type
Not my type
You're not my type So when the smoke clears here I am
You're reject all American
Falling from grace, right on my face
To Hell and back and Hell again I've gone
[inaudible]
