## **Fake Rain**

## **Sarah Hudson**

Like everyone else in Hollywood I'm good at make-believe I know how to make my entrance But I don't know how to leave Cause this time it really hurts And this time it's just the worst 'Cause I'm feeling it insideGimme some fake rain, fake rain To hide my real tears Don't want you to see my pain Gimme some fake, fake rain, fake rain To wash your goodbye kiss awayJust another day in Hollywood They towed away my car Gonna pull my act together Before I fall apart'Cause this time I'm feelin' weird I can't seem to shake the fear All over me as I cryGimme some fake rain, fake rain To hide my real tears Don't want you to see my pain Gimme some fake, fake rain, fake rain To wash your goodbye kiss away Fake rain, ah, fake rain, ahSomebody save me Lock me up and medicate me I'm gonna get on a long trainAnd get off where nobody knows me I'm tired of trying, my innocence dying I'm waiting and hating and everyday praying forFake rain, fake rain To hide my real tears Don't want you to see my pain

Gimme some fake, fake, fake rain, fake rain
To wash your goodbye kiss awayMake it go away, go away
Make it go away, go away
Go away, go away
Fake rain
