1927

Beatfrog

You ve heard i am back in the city
beset by thoughts about those times today
no use for regular people
ill suited for the world of everyday
one day i ve heard a story
of a man who consists
out of two two parts
one high the nature of humans
one low dangerous like a wolf in the dark

Take what you need for a happy ending
just you and me and a happy ending

after some days in the city
tried to leave my past and pains behind
i ve met the girl hermine
oddly she seemed to me like an old friend of mine
teached me to love and dance
let me get away with what i called bourgoise
but a part of my soul
is walking aimlessly around the town

Take what you need for a happy ending
just you and me and a happy ending

Take what you need for a happy ending
just you and me and a happy ending
