Angel On My Shoulder

Krystal Harris

So many nights alone
Without you by my side
I never knew what I was missing
But then you came along
With all your special ways
Bringing me joy, laughter, what I was
wishing for
*CHORUS:
My angel
On my shoulder
You give me shelter
You give me love & affection
Everytime I turn around
You're still right here
Angel
My angel
Oooh my dear
My wonderful friend
In times we'll triple the land
When all the rest of the world runs
away
You open up my heart
And make me realize
You would be the one who would stay
*CHORUS:
My angel
On my shoulder
You give me shelter
You give me love & affection

Everytime I turn around
You're still right here
Angel
My angel
Oooh my dear
When things sometimes start looking
out
You're with me
No matter what

No matter how
You seem to find a way
Sharing your love from up above
You're all I'll ever need
God must have sent you to me
Oooh ooh
*CHORUS:
My angel
On my shoulder
You give me shelter
You give me love & affection
Everytime I turn around
You're still right here
My angel
My angel
Oooh my dear
Oooh my dear
Oooh my dear
Oooh my dear
