

Take My Anthem

Live

War in me
War overseas
There ain't no difference between Blood in me
Blood overseas
There ain't no difference between War in me
And war overseas
There ain't no difference between And blood in me, and blood overseas
There ain't no difference, no difference
No difference between us The chills in your spine are oh so sweet
People honor you so high
You've got to defend the stage at your feet, no Take, take, take my anthem today now
Take, take, take my anthem today
Take it away Hands on me
And hands overseas
There ain't no difference between And a heart in me, and a heart overseas
There ain't no difference, no difference
No difference between us The chills in your spine are oh so sweet and
People honor you so high
You've got to defend the stage at your feet, no Take, take, take my anthem today now
Take, take, take my anthem today
Take it away I'll take it away, I'll take it away, I'll take it away now
I'll take it away, I'll take it away, I'll take it away
I'll take it away War in me
War overseas
There ain't no difference between me
