Evolution Exceed

Pagan's Mind

Supernatural message, into soil of earth
Spitting fire invasion
Passive world will burnMass destruction, force our mission
Cool winds cleansing
Flesh devoured, slowly fading
Feel the death of our realm
Order of the Inqusition
You are left to dieEvolution Exceed
As our visions fly free
Hear our voices searching
All across the lands
So it will be Done
As our visions are growing strong
Letting all you see, what will be
What has beenMassive energy presence
Legacy alive
Alien Entity rising
Massive world collideMass destruction, force our mission
Cool winds cleansing
Flesh devoured, slowly fading
Feel the death of our realm
Chained under infernal pressure
None will hear your cries
What is written fade to pieces
Enemies ariseEvoloution Exceed
As our visions fly free
Hear our voices searching
All across the lands
So it will be Done
As our visions are growing strong
Letting all you see, what will be
What has been"The core seems to expand in a pace
that the world community is having
difficulties to break down
The process of revitalizing our
world aura are slowing down
The concern of The United Planet
Alliances(U.P.A) are now on level RED"Evolution Exceed
As our visions fly free

Hear our voices searching
All across the lands
So it will be Done
As our visions are growing strong
Letting all you see, what will be
The invision lies, the invision lies
In the name of Her Reign
And All Creation"Every living thing on this planet has an Aura
It's our Legacy"
