

# Gutted

## Cannibal Corpse

Advisory - the following lyrics contain explicit language:

A table of the deranged, this savage brutal being  
A shocking way of life living on human offspring  
Murder of the innocent, his pale grey face expressionless  
    Horrid dismemberment  
    One persons tortures, is anothers pleasure  
    Malformation, a diseased brain  
Unsuspecting slowly dying, as his knife invades  
    The child, screams of pain, no one hears  
    Blood splotches now appear, ecstasy through  
    Each cut, now the body twitches the gutted  
    Little torso ready to be cooked  
    Isolated in his own mind the need to kill  
    Now possesses his body  
    Self mutilated  
Between killings ejaculation, cut off appendages  
Of former victims, sexual violence satisfaction  
    Disembodied corpses, spewing gore  
On his body, soaked with their fluids, various  
    Digestive parts, and assorted meats  
Plunging his fist down the throat, ripping out  
    The guts, internal extraction  
    The entire body bleeding  
    The heart stops pumping  
The child lying dead, just another gutted infant  
To satisfy his hunger, temptations of the flesh  
    Voracious appetite  
Killing to release pure souls to the heavens  
    Justification of his killing self-torture  
    Stiffening pain  
    He sees the faces of the dead  
    Guts are strewn from the children  
    Splintered bones, poke through skin

Gratification through castration  
Roasting parts for consumption
