

# Undone

## Suicide City

Necro tube love puritified glove  
Hold me nurse body's learning  
Parts are yearning for programs

Cold entering the Fold grab  
your hand and Hold don't do  
what you're Told

Cutting horses bleeding forces  
Silver Skin

Jesus makes you cursed  
Jesus why's it hurt  
Undone undone I have come  
Undone I have Come Undone  
I'm undone

Stealing hangers feeling coldsores  
now I'm awake sinking pigs feet  
ticking raw meat forgive me  
touching dry tight chemical fight  
paper guns  
Ether

Either which way I'm still losing you  
I remain with family I knew  
Does my mother still think about me  
does she cry knowing where I may be

---
