Lordy Lordy

Brave Giant

I wanna be far, far , far away from here,
'Cause I don't think I could take it for another year,
Won't ya give me some direction towards the light,
'Cause I don't think I could take another sleepless night.

So Take my hand and come with me , and I'll show you the places that we were never meant to see,
You get your rifle and I'll get my gun,
Lordy Lordy Hallelujah yeah I think I've found the one.

I wanna go where the lights are saying my name,
Wasted talent just like mine is such a crying shame,
And I hate to say I told ya so but you know I'm right,
So go and tell your Daddy you won't be coming home tonight,yeah

So Take my hand and come with me , and I'll show you the places that we were never meant to see,
You get your rifle and I'll get my gun,
Lordy Lordy Hallelujah yeah I think I've found the one.

I don't care where I'm going just as long as I'm with you ,
You'll still be thinking of me even once we're through,
Then I'll pick up my rifle and you'll pick up your gun,
And we'll both shout Hallelujah yeah 'cause we know that we're the ones.

Grab your rifle, grab your gun
Grab your rifle, grab your gun
Grab your rifle, grab your gun
Grab your rifle, grab your gun
