Food

Tinyfolk

We're gonna get some food in the house tonight
Get some food in the house tonight
We're gonna get some food in the house tonight
Get some food in the houseFor to starve is to hate is to kill is to sin
Better love's on your plate, get your fill and dig inWe're gonna get some food in the house tonight
Get some food in the house tonight
We're gonna get some food in the house tonight
Get some food in the houseWe're gonna get some food on the table tonight
Get some food on the table tonight
We're gonna get some food on the table tonight
Get some food in the houseHell is strife and confusion, be frightened or fine
Well, if life's an illusion we might as well dineWe're gonna get some food in the house tonight
Get some food in the house tonight
We're gonna get some food in the house tonight
Get some food in the houseWell, now we're feelin' full in the house tonight
Feelin' full in the house tonight
Oh yeah, we're feelin' full in the house tonight
Feelin' full in the houseWe're gonna go to sleep in the house tonight
Go to sleep in the house tonight
We're gonna go to sleep in the house tonight
Go to sleep in the house
