

6AM

Family of the Year

[T-Pain]

Girl why you mad (why you mad)
I know (know) exactly what time it is

You ain't gotta tell me (you ain't gotta tell me)
So what's up with the yelling (what's up with the yelling)
Shorty I was up in the club (club) really turned up (up)
Chillin just minding my biz
I wasn't doing nothing wrong (wasn't doing nothing wrong)
Girl you know that I was coming home

[Melanie]

I'm just saying
It feels like forever you been gone
Where did you go (where did you go)
And how do I know (I know)
It ain't a lie (ain't a lie)
Cause it seems like it never takes this long
For you to come back
Boy tell me where your phone is
You a grown man

[Chorus]

It's six in the morning
Conversation got boring
And I been waiting up for him
Six in the morning
Why did my lover not answer
I was somewhere with a dancer
It's six in the morning
Oochy wally wally you been at a party
Getting all kinds of naughty
It's six in the morning
Too many lies, not enough time
Four and five, six in the morning
It's 6am, It's 6am, It's 6am, It's 6am

[T-Pain]

It's way too early (too early), calm down (down)
You ain't gotta jump in my face

I'm bout to go to sleep (I'm bout to go to sleep)
Holla at me round three (holla at me round three)
 (Girl, Girl) Girl I been drinking
 And I can't even make up a lie right now
 With you in my ear (with you in my ear)
 Shorty I was just playing (I'm listening)
 What are you saying?

[Melanie]

Boy who the hell you really think you're talking to
 If only you knew (if only you knew)
What I had planned for you (for you) you woulda been here
 Coulda had had my loving
Instead you out there clubbing (that ain't cool)
 And you ain't even pick up the phone
 I'm tired of being all alone

[Chorus]

It's six in the morning
 Conversation got boring
And I been waiting up for him
 Six in the morning
 Why did my lover not answer
I was somewhere with a dancer
 It's six in the morning
 Oochy wally wally you been at a party
 Getting all kinds of naughty
 It's six in the morning
 Too many lies, not even time
 Four and five, six in the morning
 It's 6am, It's 6am, It's 6am, It's 6am

What your ass doing up anyway, anyway
Fuck that I was sitting here worried about you
 I been on my grind all week (like me)
 I was just trying to grab me a drink
 You coulda picked up the phone
 And let your girl know
 Cause love shoulda brought ya home

[Chorus]

It's six in the morning
 Conversation got boring
And I been waiting up for him
 Six in the morning

Why did my lover not answer
I was somewhere with a dancer
It's six in the morning
Oochy wally wally you been at a party
Getting all kinds of naughty
It's six in the morning
Too many lies, not even time
Four and five, six in the morning
It's 6am, It's 6am, It's 6am, It's 6am
