

# Hands off My Heart

MKTO

Baby you don't even know it but you're leaving me in pieces  
You take you take you take me apart  
Baby I surrender it's too late for me to get your hands off hands off get your hands off my heart Tryin' to keep  
myself together but I'm losing my mind  
Every second that I think of you  
Stealing every single piece of me like love is a crime  
It should be illegal what you do There's only so much I can take  
I tried so hard I can't escape  
Your body's always in my way  
There you are, there you are Baby you don't even know it but you're leaving me in pieces  
You take you take you take me apart  
Baby I surrender it's too late for me to get your hands off hands off get your hands off my heart Get your hands  
off my heart She's a mad gamer, dance gamer  
Caught on the bus with the grand [?]  
Your girl gone bad so deceiving  
I wish she comin' [?]  
Taking what you to hear too good to be true  
All this time without a warnin' never thought it'd be you  
Take taking a chance like I was the man but you should be the one with my heart in your hands There's only so  
much I can take  
I tried so hard I can't escape  
Your body's always in my way  
There you are, there you are Baby you don't even know it but you're leaving me in pieces  
You take you take you take me apart  
Baby I surrender it's too late for me to get your hands off hands off get your hands off my heart Oh Oh Oh Ohhh  
You got me tryna break free but your hands on my heart got a hold of me  
I don't know if this' really how it's supposed to be  
What made her cold the way that you walk the way that you talk  
Got me layin' dead in the streets surrounded by [truck] I knew what you were doing from the start but [?] stop  
squeezing with your hands around my heart til' it pops Take your hands off hands off of me  
Take your hands off hands off of me  
Take your hands off hands off of me  
Take'm off me  
Take'm off me Baby you don't even know it but you're leaving me in pieces  
You take you take you take me apart  
Baby I surrender it's too late for me to get your hands off hands off get your hands off my heart
