

I Wanna Be Happy

[AJ McLean](#)

[spoken]: happines is what you make of iti see people come and go
---my mother told me she said don't let life control me
but i did
so wacha think of me
wacha think of me now
who i ami'm everything you wanted me to be
but you can see i'm not very happyi need some time to find myself within me
and i need some time to find true love
and if i can't then i won't stop trying
and if i don't then i won't keep lying
what do poeple really want
they want to be happy
i wanna be happy
