

# Lives and Loves

## Simply Red

Lives and loves, don't tell me about it  
To respond to something permanent, you've got to be strong  
Mmm...lives and loves  
Only you know in your heart how the pain felt  
How the love made you melt, me and you love  
We have a way that seems to brighten up the day  
We have our problems  
Is the whole world asking is it worth it?  
All the lovers in the world should they go on?  
On and on and onOohhh, live and loves, don't tell me about it  
Someone always gets hurt in it, you've got to be strong  
Hey... lives and loves  
Only we know in our hearts how the pain felt  
Oh your love made me melt, me and you love  
We have a way that seems to brighten up the day  
We have our problems  
Is the whole world asking is it worth it?  
All the lovers in the world should they go on?  
After all, they say you only live once
