

Introducing Palace Players

Mew

What is it that you do?
You gotta get back up yourself
We know so much, so much we do
(No answer)
In a word you were told
That it'd fix your shaky home
And what got made was broken too
Just to field with you, switching seats with you
Tears us apart
(I don't want it to)
Some peculiar fix the two of us
Counting us out
(I don't want it to)
(Overnight, turned on gray)
What is it that you do?
You gotta get back up yourself
We know so much, so much we do
(No answer)
In a word you were told
That it'd fix your shaky home
And what got made was broken too
Just to field with you, switching seats with you
Tears us apart
(I didn't want it to)
Some peculiar fix the two of us
Counting us out
(I don't want it to)
Just to creed with you, switching seats with you
Tears us apart
(I didn't want it to)
What are we going to do? I'd really like it if you
Turned out the lights as we planned
It's gonna hurt
(I don't want it to)
Why did you go? Lots of different reasons
So many, you can't even count
You think it's right, jumping off the see-saw
Or do you just want it to be?
Why did you go? Lots of different reasons

So many, you can't even count
You think it's right, jumping off the see-saw
Or do you just want it to be?
