Ballerina Legs

Najwa

Behind the tune
Ballerina legs
Walk passing cities
Bubble cities
Ice citiesDark and colour cities
Death cities
Cities on fire, cities on fire
Cities on fireWareness began
She lost her sense of time
Block out her legs stop dancing
She tries to walk back homeBut one day it's too late
One day it's too late
One day it's too late
'Cause one day it's too late
One day it's too late
One day it's too lateDark and colour cities
Death cities
Cities on fire, cities on fire
Cities on fireLooking between the rubble
She couldn't identify
Block out her legs stop dancing
She tries to walk back homeBut one day it's too late
One day it's too late
One day it's too late
'Cause one day it's too late
One day it's too late
One day it's too late'Cause one day it's too late
One day it's too late
One day it's too late
'Cause one day it's too late
One day it's too late
One day it's too lateFirst day, she danced day and night
Second, she walked down on the water
Third day, she tried to bring it back
And the last, moon and stars
Moon and stars, moon and stars
