

# **Hazy**

## **Mark Lemhouse**

hazy just because sometimes you let me know I don't maybe just because sometimes you make me crazy today  
will show me the something that will phase me something that will move me besides dreams it seems lately  
seems like even what I say and do myself everything I see and hear makes me angry what else can I say I'm still  
waiting for this moment to be gone million mile second a million thoughts in one high and wondering why so  
loud and bright I ain't got no idea what the hell is going on
