Mainline

Teleman

Standing on the mainland, the sea's on fire
Hanging on a tightrope, don't shake the wire
Running down the mainline, you're just in time
Never gonna come, but I think you saved my lifeStanding on my tiptoes, so I'll be seen
Everybody loves you, it's not just me
Listen to the broadcast, now can't you see
Everybody's saying that you're way too good for meAnd now
Just lie beside me
We can burn down,
Take down the walls we builtI think I've done my best now, I'll wash my hands
Who is in the bedroom, it's a secret gang,
Have another breakdown, and make some plans,
Think about the money that you spent on making friendsLast night
Oh tell me truly
Do you sleep alright
You must be kidding meStanding on the mainland, the sea's on fire
Hanging on a tightrope, don't shake the wire
Running down the mainline, you're just in time
Never gonna know it but I think you saved my lifeNever gonna know it but I think you saved my life
